

AMINOLab® - Ordersheet

Technical Service Manager: H. Brusse
Customer (Company, Institute, FA-Number): Fortfarmers NV
City: Lochem Country: the Netherlands

→ Description / comments on samples: 433468
Expected contents for suppl DL-Met: _____ %, L-Lys: _____ %, L-Thr: _____ %,
MHA-FA: _____ %, MHA-Ca: _____ %, L-Trp: _____ %, others: _____ %

Systematic classification of samples:

- a) Mixed feed or feed additive
☒ Complete feed ☐ Feed concentrate ☐ Trial feed ☐ Other type: _____
☐ Premix ☐ Biolys¹
 → - Feed sample for what type of animals?
☐ Broiler ☐ Layer ☐ Rearing pullet ☐ Turkey ☒ Pig/Swine ☐ Sow ☐ Ruminants ☐ Fish
 - Phase: ☐ Starter ☐ Grower ☐ Finisher ☐ Lactating ☐ Other: _____

b) Feed ingredient (raw material)

Ingredient name: _____
Variety / type of processing: _____
Country of origin: _____

c) Physiological sample

☐ Digesta ☐ Feces ☐ Carcass ☐ Plasma/Serum ☐ Others: _____

Required analyses:

- a) Chromatographic methods
☒ All AA, except Tyr, Trp¹ (Ox + Hyd) ☒ Tryptophan¹ (alkaline hydrolysis)
☐ Supplemented AA (extraction) ☐ Supplemented Tryptophan²
☐ AA in premix or Biolys¹ ☒ MHA (AlimetTM, RhodimetTM AT 88, Sumitomo-Liquid)
☐ Tyrosine (acid hydr without Ox) ☐ MHA-Calcium
 b) Near-infrared spectroscopy (NIRS) of ingredients¹ NIRS-Estimation of all important AA

- c) Other analyses: _____ Note: AA = amino acids, Ox = oxidation of met and cys in protein
☐ I prefer chromatographic analysis to NIRS¹
 Priority: ☒ Normal ☐ Urgent (until: _____) ☐ Low
 Shall analyses be charged?² ☒ No (customer service, trials, etc) ☐ Yes (non customer)

→ Date: 03-04-2019

Signature: Inge

¹ NIRS enables very fast analysis. For ingredients NIRS amino acid analysis is applied, whenever possible.
² As agreed with the Technical Service Manager of the region.
³ Supplemented tryptophan can only be reported, if the main ingredient composition of the feed is given in percent.
 This is to enable the necessary correction for natural free tryptophan contents (blind values).

b) Near-infrared spectroscopy (NIRS) of ingredients¹⁾

NIRS-Estimation of all important AA

c) Other analyses:

☐ I prefer chromatographic analysis to NIRS¹⁾

Priority: ☒ Normal

☐ Urgent (until: _____)

☐ Low

Shall analyses be charged?²⁾

☒ No (customer service, trials, etc)

☐ Yes (non customer)

→ Date: 20-3-2019

Signature: 

¹⁾ NIRS enables very fast analysis. For ingredients NIRS amino acid analysis is applied, whenever possible.
²⁾ As agreed with the Technical Service Manager of the region.

³⁾ Supplemented tryptophan can only be reported, if the main ingredient composition of the feed is given in percent.
 This is to enable the necessary correction for natural free tryptophan contents (blind values).

Betreff:

widersprüchliche Infos ForFarmers

Hallo Jens-Erik,

Wir haben Proben von Dir von ForFarmers erhalten, aber dort sind zwei Zettel beigefügt: eine Vorregistrierung und ein Kundenformular.

Die Informationen auf beiden Zetteln sind widersprüchlich, deshalb kann das Registrierteam keine Registrierung ausführen.

Wenn ich nichts Gegenläufiges bis morgen höre, würde ich die Analytik gemäß der Vorregistrierung ausführen lassen und die Kundenzettel an Dich per Post zurückschicken.

Viele Grüße

Ingolf
